# Comprehensive Solutions for Deformity Correction

## RAPIDSORB® Injectable Polymer System

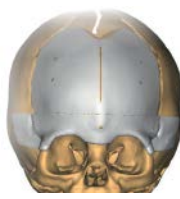

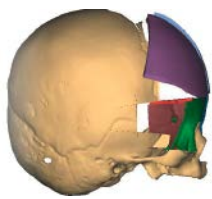

Cordless Resorbable Fixation for Cranial Vault Reconstruction

- Multiple fastener length options allow an optional bolus of polymer on the bone's underside
- Significantly decreases surgeon workload vs SonicWeld Rx<sup>1</sup>
- Surgeons preferred IPS over SonicWeld Rx<sup>1</sup>

## TRUMATCH® CMF Personalized Solutions

Fully personalized solutions to help achieve accuracy, efficiency, and patient benefit, for even the most complex surgeries

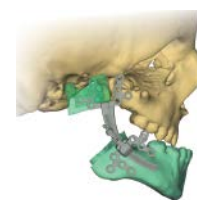

Virtual surgical planning and guides for cranial vault reconstruction

Titanium 3D printed guides and plates for facial reconstruction and orthognathic surgery

### Family of Distractors

- Curvilinear Distraction System allows surgeons to correct complex mandible deformities with an internal distractor and is compatible with TRUMATCH® CMF Personalized Solutions planning and guides
- External Midface Distractor provides user-friendly, versatile, and secure distraction of the midface and cranium
